Monitoring your zone and anticipating pressure

Zone Watch

Watch the zone, not one post. Stand where you can see.

Zone check every 15 minutes. Danger signs: call at once.

Chase silence. Read the trend: Fine, Busy, Getting full means act now.

Act, act and inform Alpha 1, or report and request.

Request: call sign, where, what, need, over.

Never strip exit posts. Holds start and end on instruction.

Record every decision. No Control? 911, or 998 fire, 997 injury.
